

---

The oystermen and fishermen of Saxis, as will be noted elsewhere, in a mass meeting recently held, recommend Dr. Frank Fletcher as chairman of the Board of Fisheries, and our advices are, that similar meetings, in addition to those at Saxis and Harborton, would have been held in many sections of the county, if it had not been accepted as a foregone conclusion that Dr. Fletcher would receive the appointment. His fitness for the position seems to be a matter about which the people of Accomac are so unanimously agreed, that there could be no question as to the way it would be decided if left to them. Our representatives are advised, we presume, as to their wishes in the matter, and accepting the instructions thus given, of course, will urge his selection by the Governor.
